4. First-aid measures

Inhalation Remove source of contamination or move victim to fresh air. If breathing has stopped, properly trained personnel should begin artificial respiration or cardiopulmonary resuscitation (CPR) immediately. Obtain medical attention immediately.

Ingestion Do not give anything by mouth if victim is rapidly losing consciousness or is unconscious or convulsing. If swallowed, do NOT induce vomiting. Seek immediate medical attention.

Skin Remove contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Wash gently and thoroughly with water and non-abrasive soap. If irritation persists, obtain medical attention. Completely decontaminate clothing, shoes and leather goods before re-use or discard.

Eye contact Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 20 minutes, by the clock, holding the eyelid(s) open. If irritation persists, obtain medical attention immediately.

Other Information Provide general supportive measures (comfort, warmth, rest). Consult a physician and/or the nearest Poison Control Centre for all exposures except minor instances of inhalation or skin contact.

5. Fire-fighting measures

Specific hazards arising from the chemical FIRE EXTINGUISHING AGENTS Carbon dioxide, dry chemical, foam FIRE FIGHTING PROCEDURES Water is not generally suitable for fighting fires involving this material. Water spray can be used to absorb heat, keep containers cool, and protect exposed materials. COMBUSTION PRODUCTS Carbon dioxide, carbon monoxide, hydrogen chloride, and phosgene. Firefighters to wear breathing apparatus.

6. Accidental release measures

Spills & Disposal PRECAUTIONS Restrict access to area. Provide adequate protective equipment and ventilation. Remove sources of heat and flame. Only trained personnel should perform or supervise cleanup operations. CLEANUP Stop or reduce discharge if it can be done safely. Contain material. Material should be recovered if possible or collected on absorbent material such as sawdust, paper, sand, or clay. Prevent entry into water or sewer systems. Marine pollutant. DISPOSAL Review federal, state and local regulations prior to disposal. May be possible to dispose of in a designated landfill site or burn in an approved incinerator. Dispose of following requirements of state environmental authority. Keep away from heat, naked flame or sparks. Do not flush to drains or sewers. Do not contaminate stream, rivers or water courses. Inform local authority if liquid enters drains, sewers, streams etc.

7. Handling and storage

Conditions for safe storage, including any incompatibilities STORAGE CONDITIONS Store in tightly-closed containers in a cool, dry place, separate from normal work area and incompatible materials. Protect containers from damage or breakage. Containers should be covered when not in use and away from naked flames. HANDLING Use in minimal quantities, in designated areas with adequate ventilation. Wear appropriate protective equipment to prevent skin and eye contact.
