

Infosafe No™ VARG6	Issue Date : May 2016	ISSUED by HUNTER
--------------------	-----------------------	------------------

Product Name **HOOK OIL**

Classified as hazardous

## 1. Identification

**GHS Product Identifier** HOOK OIL

**Company Name** Hunter Industrials Pty Ltd (ABN 083 330 974)

**Address** 51-53 Lakewood Blvd  
Braeside  
Vic 3195 Australia

**Telephone/Fax Number** Tel: (03) 9586 2888  
Fax: (03) 9587 9851

**Emergency phone number** 0409 949 298

**E-mail Address** sales@huntind.com.au

**Recommended use of the chemical and restrictions on use** Corrosion prevention and lubricant oil.

## 2. Hazard Identification

**GHS classification of the substance/mixture** Aspiration Hazard: Category 2  
Eye Damage/Irritation: Category 2B

**Signal Word (s)** WARNING

**Hazard Statement (s)** H305 May be harmful if swallowed and enters airways.  
H320 Causes eye irritation

**Precautionary statement – General** P102 Keep out of reach of children.  
P103 Read label before use.

**Pictogram (s)** Health hazard

**Precautionary statement – Prevention** P264 Wash contaminated skin thoroughly after handling

**Precautionary statement – Response** P301+P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.  
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P331 Do NOT induce vomiting.  
P337+P313 If eye irritation persists: Get medical advice/attention.

**Precautionary statement – Storage** P404 Store in a closed container.

**Precautionary statement – Disposal** P501 Dispose of contents/container: Recycle packaging by replacing cap and returning clean containers to recycler or designated collection point.

## 3. Composition/information on ingredients

Ingredients	Name	CAS	Proportion
	Heavy solvent-dewaxed paraffinic oil	64742-65-0	60-100 %
	Surfactants	N/A	10-30 %
	Other ingredients determined not to be hazardous	Not required	to 100%

## 4. First-aid measures

Infosafe No™ VARG6	Issue Date : May 2016	ISSUED by HUNTER
--------------------	-----------------------	------------------

Product Name **HOOK OIL**

Classified as hazardous

<b>Inhalation</b>	Remove to fresh air. If rapid recovery does not follow, get medical aid.
<b>Ingestion</b>	If swallowed, do NOT induce vomiting. Give a glass of water to be taken slowly. Give nothing by mouth to an unconscious person. Get medical aid. If aspiration of vomited material occurs, get immediate medical aid.
<b>Skin</b>	If skin contact occurs, remove contaminated clothing and wash skin thoroughly with soap and water. Wash clothing before re-use.
<b>Eye contact</b>	If in eyes, hold eyes open, flood with water for at least 15 minutes. If irritation persists, see a doctor.
<b>First Aid Facilities</b>	Eye wash station and normal washroom facilities.
<b>Advice to Doctor</b>	Product is a mixture of paraffinic hydrocarbons and surfactants. Vomiting has not been induced because of risk of aspiration into the lungs. Contact Poisons Information Centre.

## 5. Fire-fighting measures

<b>Suitable extinguishing media</b>	Foam, dry powder.
<b>Hazards from Combustion Products</b>	Carbon dioxide, water vapour, sulphur dioxide, thick black smoke. Incomplete combustion may generate carbon dioxide.
<b>Specific Methods</b>	Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of decomposition. If safe to do so, remove containers from path of fire.
<b>Specific hazards arising from the chemical</b>	Combustible liquid, flash point 205 °C. Contact with strong oxidising agents may cause fire.

## 6. Accidental release measures

<b>Spills &amp; Disposal</b>	Disposal of small spillages only. For large spillages liquids should be contained using sand or earth, and both liquids and solids then transferred to salvage containers. Residues should be treated as for small spillages. CAUTION: Before dealing with spillage take necessary protective measures, inform others to keep at a safe distance and, for flammable materials, shut off all possible sources of ignition. CARE! Spillages may be very slippery. Absorb on inert absorbent, transfer to container and arrange removal by disposals company. Wash site of spillage thoroughly with water and detergent. Ventilate area to dispel any residual vapour.
------------------------------	---

## 7. Handling and storage

<b>Conditions for safe storage, including any incompatibilities</b>	Store in a cool, well ventilated place, out of reach of children. Store as per the requirements of AS 1940 - The storage and handling of flammable and combustible liquids. Store in original container. Keep container tightly closed. Keep away from naked flames and other sources of ignition. No smoking. Keep away from oxidising agents. Protect from physical damage. Clean up all spills and splashes promptly; avoid secondary accidents.
---	---

## 8. Exposure controls/personal protection

<b>Other Exposure Information</b>	Exposure standards: Oil Mist (mineral): TWA 5 mg/m3 STEL 10 mg/m3 TWA is the time weighted average concentration of the work atmosphere over a normal 8-hour work day and a 40-hour work week. Nearly all workers may be repeatedly exposed to this level, day after day, without adverse effect. STEL is the short term exposure limit.
<b>Appropriate engineering controls</b>	If using in enclosed spaces, consider local mechanical exhaust/extraction to keep airborne contamination as low as possible.
<b>Personal Protective Equipment</b>	Wear PVC or suitable solvent gloves, waterproof footwear and eye protection. If risk of splashes into eyes, wear safety glasses with side shields. If conditions cause vapour concentration to exceed TWA standards, or operator discomfort arises, wear a face mask fitted with organic vapour cartridges. Fresh air supply mask/hood should be used in poorly

Product Name **HOOK OIL**

Classified as hazardous

ventilated/enclosed areas.  
Always maintain a high level of personal hygiene when using this product.  
That is wash hands before eating, drinking, smoking or using the toilet.

## 9. Physical and chemical properties

<b>Form</b>	Liquid
<b>Appearance</b>	Brown viscous liquid
<b>Odour</b>	Characteristic hydrocarbon smell.
<b>Boiling Point</b>	>350 °C.
<b>Solubility in Water</b>	Not soluble
<b>Specific Gravity</b>	0.88
<b>pH</b>	Not applicable.
<b>Vapour Pressure</b>	Not applicable
<b>Evaporation Rate</b>	No data
<b>Flash Point</b>	205 °C
<b>Flammability</b>	Combustible liquid, flash point 205 °C. Keep away from oxidizing materials.
<b>Auto-Ignition Temperature</b>	No data
<b>Flammable Limits - Upper</b>	No data

## 10. Stability and reactivity

<b>Chemical Stability</b>	Stable under normal use conditons.
<b>Conditions to Avoid</b>	Heat, direct sunlight, open flames or other sources of ignition.
<b>Incompatible Materials</b>	Strong alkali, acids, oxidising agents.
<b>Hazardous Decomposition Products</b>	Emits smoke and fumes when heated to decomposition.
<b>Possibility of hazardous reactions</b>	Do not mix with bleaches, acids, or other cleaning solutions.

## 11. Toxicological Information

<b>Acute Toxicity - Oral</b>	No data.
<b>Ingestion</b>	May cause nausea and vomiting. Aspiration (liquid into lungs) of vomited material may cause pneumonitis. Unlikely to occur because of high viscosity of oil.
<b>Inhalation</b>	Mists may cause irritation of upper respiratory tract.
<b>Skin</b>	Irritant. Used cutting oils are more irritating than fresh.
<b>Eye</b>	Irritant.
<b>Chronic Effects</b>	Prolonged or repeated skin contact may lead to dermatitic effects. There is evidence that used cutting oils can cause skin cancer.

## 12. Ecological information

<b>Ecotoxicity</b>	In large concentrations may be harmful to the aquatic environment.
<b>Persistence and degradability</b>	Inherently biodegradable.
<b>Mobility</b>	Emulsifies in water.

Product Name **HOOK OIL**

Classified as hazardous

---

**Environmental Protection**      Avoid contaminating waterways, drains, sewers, or ground.

---

**13. Disposal considerations**

---

**Waste Disposal**      Refer to appropriate authority in your State. Dispose of material through a licensed waste contractor. Normally suitable for disposal by approved waste disposal agent.

---

**14. Transport information**

---

**Transport Information**      Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

---

**15. Regulatory information**

---

**Poisons Schedule**      S5

**AICS (Australia)**      All components listed.

---

**16. Other Information**

---

**Signature of Preparer/Data Service**      Technical Manager 03 9580 2499

**Technical Contact Numbers**      Emergency Advice All Hours:  
Tel: 0409 949 298 Mon-Fri 8am - 6pm  
Poisons Information Centre: 13 11 26 - 24hrs

**Other Information**      This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the Workplace. Please refer to the technical datasheet (Instructions for use), and the label on the drum. The company cannot anticipate or control the individual working conditions encountered and so each user should read this SDS carefully, and if in doubt ring the Contact Point Number given below.
